

RGA Technology Partners, Inc.[®] Brings AURA to ExamOne's Integrated Supply Chain

ST. LOUIS, MO, January 7, 2008 – RGA Technology Partners, Inc., (RTP) a wholly-owned subsidiary of Reinsurance Group of America, Incorporated (NYSE:RGA) today announced a partnership with ExamOne to provide a unique underwriting solution to ExamOne clients.

AURA[®] (Automated Underwriting and Risk Analysis) software will guide ExamOne teleinterviewers as they progress through underwriting interviews, gathering relevant information and using reflexive questioning to tailor each interview accordingly. AURA will evaluate the data gathered during the interview as well as other key data including lab results, MIB records, motor vehicle records and prescription databases. This information will run through AURA's rules engine and tag each application as Accept, Decline or Refer to Underwriting, based on each insurer's business rules, policies and procedures.

"What we envision now is a uniquely powerful solution that will be a tremendous help to underwriters," said Jym Barnes, President and Chief Executive Officer, RGA Technology Partners, Inc. "This agreement brings together the premier provider of teleinterviewing and medical data with the premier provider of automated underwriting software. The result is going to make underwriters much more efficient in what they do and will certainly be a sought-after solution for years to come."

It is expected that bringing AURA into ExamOne's Integrated Supply Chain will streamline underwriter workloads, reduce overall underwriting costs per application and decrease policy delivery cycle time.
